What Is a 500 Internal Server Error and How Do I Fix It?

The 500 Internal Server Error is a very general HTTP status code that means something has gone wrong on the website's server, but the server could not be more specific on what the exact problem is. Websites phrase 500 errors in many ways but they're all basically saying the same thing: there's a general server issue going on right now.

500 Internal Server Error (What It Is & How to Fix It)

Geometrically, a simple bivector can be interpreted as an oriented plane
