Cessna 402 Maintenance

The Cessna 401 and 402 were developments of the Cessna 411. One goal for the Cessna 401/402 was to improve upon the very bad single engine handling of the Cessna 411. Another goal was to avoid using the somewhat expensive and maintenance prone geared engines of the Cessna 411.

homework when it came to ease of maintenance. Unlike some other complex twins, operators report that the 402 (and 400-series Cessnas in general) have good maintenance access and are easy to work on. Overall, the airplane is said to be reliable, though commercial use is hard on equipment and problems do occur.

Maintenance and costs “The 404 is 30 percent the same parts as the 402 maintenance-wise,” Caruso explained, “and similar to working on a 402C. “Also, serial number [of a 404] does not guarantee a better aircraft. A plane’s history, including its usage, maintenance and where it has been operated is much more important.”

Cessna Flyer Association - Nothing Else Quite Like It: The ...

The Cessna 402 is a light twin, piston engine aircraft. All 401s and 402s are powered by 300 hp turbocharged Continental engines with three-bladed, constant speed, fully feathering propellers. On later models cruise power was limited to 75% to reduce cabin noise. Some aircraft have a propeller synchrophaser to reduce cabin noise and vibration.
