Deploying Zone Based Firewalls Digital Short Cut Ivan ...

Zone-based policy firewalls examine the source and destination zones from the ingress and egress interfaces for a firewall policy. It is not necessary that all traffic flowing to or from an interface be inspected; you can designate that individual flows in a zone pair be inspected through your policy map that you apply across the zone pair.

Zone-Based Policy Firewall [Support] - Cisco Systems

Manage firewall architectures, policies, software, and other components throughout the life of the firewall solutions. There are many aspects to firewall management. For example, choosing the type or types of firewalls to deploy and their positions within the network can significantly affect the security policies that the firewalls can enforce.

Guidelines on Firewalls and Firewall Policy

Zone-Based Policy Firewall (ZBPF) (Zone Based Firewall) is the successor of Cisco IOS Legacy Firewall called (CBAC) Context-Based Access Control. Concept of ZBPF is zone, which groups different interfaces sharing the same security attributes or the same level of trust.

Ivan Pepelnjak - amazon.com

IOS-Zone-Based firewalls is a specific set of rules which may help to mitigate mid-level security attacks in environments where security is also meant to be implemented via routers. In zone-based firewalls (ZBF), interfaces of devices are placed to different unique zones like (inside, outside or DMZ) and then policies are applied on these zones, Naming Conventions for zones must be easier to understand in order to be helpful at the hour of troubleshooting.
