of the elementary theory of survey sampling serves to introduce several concepts and techniques that will recur and be amplified in later chapters. Sample surveys are used to obtain information about a large population by examining only a small fraction of that population. Sampling techniques have been used in many fields, such as the following:

Elementary Survey Sampling - Student Solution Manual 7th ...

In statistics, survey sampling describes the process of selecting a sample of elements from a target population to conduct a survey. The term " survey " may refer to many different types or techniques of observation. In survey sampling it most often involves a questionnaire used to measure the characteristics and/or attitudes of people.
