1.1 Identify: Human Study Guide by Hisrich 1.1.a. In what ways do the parts of a human body systemwork together to carry out a specific function? 1.1.b. In what ways do different human body systemswork together to complete specific functions?

1.1 Identity: Human Study Guide by Hisrich

The study of body functions is called as physiology and in view of Latin term physio means "nature" and logy means "study of". Anatomy and physiology are firmly related because in human body the structure and function are entwined. For example: Human stomach has a pouch-like shape for storing food during digestion process.
