The second part of pre-apprenticeship is a 5-day session at the Operating Engineers Training Center. Applicants are given seat time on equipment (usually a tractor-loader-backhoe), with instructors observing and evaluating them as to whether or not they will be trainable as heavy equipment operators.

| FAQ's

The work is hard, Durkin notes, adding that operating engineers are putting in 10-hour days, six days a week. After contractors suggested they go to 11-hour days, some of the workers balked because they felt close to burnout. "There were a tremendous amount of hours available to work - and the paychecks are big," he says.
