Kuwata, Masahiro [WorldCat Identities]

The use of the Ceramo-Sonic technique for the condensation of the opaque porcelain produced larger air bubbles than the brush with hand vibration technique. Although the order by which these two techniques entrapped more bubbles was different for Biobond and the other two porcelains, overall they produced larger air bubbles in all specimens.

An evaluation of four techniques for condensation of three ...

This article on choosing milling media for a ball mill by Ned Gorski is a side article that goes with the "Ball Milling 101" article. Milling Media Cautions. In his book Ball Milling Theory and Practice for the Amateur Pyrotechnician, Lloyd includes a section on casting your own lead media.
