Patents | USPTO

Patents from 1790 through 1975 are searchable only by Issue Date, Patent Number, and Current Classification (US, IPC, or CPC). When searching for specific numbers in the Patent Number field, utility patent numbers are entered as one to eight numbers in length, excluding commas (which are optional, as are leading zeroes).

U.S. Patent and Trademark Office | USAGov

Google Patent Search This is exactly what it sounds like – the Google search version of the USPTO patent database; however, it does not contain the most recent U.S. patents. It offers the ability to search through U.S. patents by patent number, inventor, keywords, date, classification number, or patent type.

Patent Search Engines - Patents: A How-To-Find Guide ...

Unfortunately, you can only search online for people who have invented something since 1976, as the search-by-inventor feature only works for patents issued from that year forward. If you want to search online for any invention older than that, you'll have to use the patent number. There's still lots to be curious about, though.

How to Search for Patents by Inventor's Name
